Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 8 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 8 recites the limitation "the method of claim 5 or 6". There is insufficient antecedent basis for this limitation in the claim. The claim is being read as reading, "the system of claim 5 or 6".

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 2, 4-6 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Larson et al., USPN 2004/0056089.

With regard to claims 1 and 5, Larson discloses a method for providing perimeter security so as to restrict entry to authorized persons (0019), wherein the method comprises steps of (a) issuing to each authorized person a token (0020) displaying or recording a unique set of electronically readable data identifying said authorized person (0030), who can present the token when seeking entry, (b) entering a photograph image of each authorized person into a database (0031), which is maintained in a portable

computer (0027) having a display (0069), (c) reading the data displayed or recorded by each token presented by a person seeking entry, via an electronic reader (0070), and sending the read data to the computer (0071), (d) the portable or handheld computer (0072) comparing the sent data to the database (0071, 0075, 0076), and displaying the photographic image entered on the database of the person identified by the sent data, via the display (0071).

With regard to claims 2 and 6, Larson discloses that not all enrolled people will have access (0069).

With regard to claims 4 and 8, Larson discloses plural readers (0067, claim 5) which each maintain a replica of the database (0072, 0027).
